Nomenclature :
— ligne double : remplacement d'une variable (e_1, γ_2,...) par sa définition (ou inversement)
— ligne simple : application d'une des règles de la sémantique opérationnelle
Simplifications d'écriture
— $e_1 = \texttt{fun}\ n\ \texttt{->}\ \texttt{if}\ n = 0\ \texttt{then}\ 1\ \texttt{else}\ n * fact\ (n-1)$
