Create your profile in other languages

Insert a **cover picture**: show what industry / sector you want to work in.

Update your **profile picture**: something professional, avoid selfies... or ID photos.

profile : Aude Delagarde

4

Update your title: describe your main activities:

- Student/intern
- Your school
- Your degree
- Your main field(s) of interest

profile: Aude Delagarde

Update your **headline** : write a short text to present yourself.

- What are your main skills?
- Are you interested in a specific sector?
- Are you involved in the associative life of your school?

You can also add a website, a picture, a video or a PDF file (e.g. your resume).

Infos

Passionnée par les nouvelles technologies et souhaitant trouver un emploi dans la région Toulousaine, j'ai décidé de changer de métier : d'ingénieure dans les nanotechnologies, je suis devenue Développeuse d'applications Full Stack. Pour cela, j'ai suivi la formation de développeur d'applications full stack à l'ENSEEIHT.

J'exerce mon nouveau métier depuis mars 2018 au sein de Morio, une start-up de l'IoT Valley, qui propose une solution d'aide à la gestion de flotte de deux-roues électriques.

YOUR LINKEDIN PROFILE IN 10 STEPS

Your current or previous professional Experiences (do not put your school degree).

For each experience:

- what were your main missions?
- what did you learn?
- don't forget soft and transversal skills you can use inside new companies or sectors.

Expérience

Développeur d'applications Full Stack

Architecture, Intégration, Développement et Design de la plateforme Morio.

- √ FRONT-END : React 16, Redux, Javascript (ES6), HTML, SCSS, Bulma
- ✓ BACK-END : Python 3.X, Django Rest Framework, PostgreSQL, SQL √ Postman, Git, npm, Webpack v4
- ✓ Docker v18
- ✓ Application responsive
 ✓ UI/UX design Voir moins

Région de Toulouse, France

Développer et améliorer la plateforme Morio

profile: Aude Delagarde

Education: current and previous schools / degrees.

For each degree:

- what were the main subjects you studied?
- did you have any practical projects?
- were you involved in the associative life?

ENSEEIHT

DU Développeur d'applications Full Stack, Informatique 2017 – 2018

Le développeur d'applications Full Stack est capable de se placer sur la création d'applications web et mobile du début à la fin du projet.

La formation Développeur Full Stack a été développée par l'ENSEEIHT et des entreprises partenaires pour répondre aux besoins de recrutement des entreprises recherchant des programmateurs.

Formés sur les dernières technologies de programmation, en front-end et back-end, les apprenants maitriseront les méthodes de gestion de projet agile. La formation Développeur Stack met la pratique au cœur de l'enseignement avec de nombreux projets à réaliser et bas sa méthodologie d'apprentissage sur la classe inversée.
